YOUR GIVING IMPACTS PATIENTS AND YOUR COMMUNITY

Summer 2025

Your gifts help patients at Henry Ford Eastwood Recovery Center!

Small changes can have a big impact on how a patient feels. Your gift made several small changes possible at Henry Ford Eastwood Recovery Center.

Old and worn blankets were replaced with soft, warm fleece blankets. Patients expressed their appreciation for the new blankets. One patient said, "Since I had chemo, I'm always cold, but I was warm last night when I slept!"

In addition, the meditation room has a new outlet adapter which allows patients to use the available

fountain, lamp and CD player at the same time, providing a relaxing environment.

A picture hanging kit was also purchased so patients can display and enjoy their artwork without damaging the walls.

Simple changes like these happen because of your generosity. You helped make recovery at the center better for our patients and staff members. Thank you for being a hero, showing our patients... they are not alone.

Providence Foundation
HENRY FORD HEALTH®

Domestic violence workshops made possible because of you!

Thank you for your gifts that were used to support domestic violence workshops in our communities.

Your donations helped purchase more than \$5,000 worth of Meijer gift cards. The cards were an incentive given to attendees who attended the workshops.

Domestic violence victims can be scared to get the help they desperately need. The gift cards help increase the attendance at the workshops. The purpose is to help victims get out of their abusive relationships.

Workshop attendees learned about the warning signs of an unhealthy relationship, how to support a friend or family member who is in an abusive relationship, and the resources available for domestic violence victims and their families.

Your gifts to the Domestic Violence Support Fund help build awareness of domestic violence and are essential in preparing women to rebuild their lives after leaving an abusive situation. Thank you.

Thank you for supporting the health of people in your community!

Your generous gifts made it possible for Henry Ford Providence Southfield Hospital to host a community outreach health fair for the second year in a row.

The latest health fair focused on improving health and wellness for families in our community, with an emphasis on women's health. Donations helped provide free health screenings and educational resources at the event.

Attendees also learned about the importance of monitoring their blood pressure and received a free blood pressure check. Those with high blood pressure received a blood pressure monitor and were encouraged to see their doctor for further care.

At the fair, expectant mothers received prenatal health education, baby supplies and other essential items. Families who were struggling were given boxes of nonperishable food items along with a backpack filled with nutritious foods. In addition, 51 children received bike helmets and learned about the importance of wearing a helmet while riding their bike.

Thanks to you, our community members are stronger, healthier and better prepared to face challenges. Your continued support makes these programs possible!

You made a big difference for cancer patients!

Thank you for your generous donations in 2024, that helped 133 cancer patients in need through \$51,200 in financial assistance. Your gifts to the Believe in Miracles Fund at Henry Ford CK Potluri Cancer Center - Providence Southfield Hospital and the Henry Ford Assarian Cancer Center – Providence Novi Hospital made this possible.

Your gifts provided essential needs for cancer patients such as coverage for utility bills, groceries, medical supplies and transportation for follow-up appointments.

Because of you, these patients and their families were able to focus on healing instead of the stress and worry about their bills and expenses.

Each patient's situation was individually assessed by our cancer social workers to ensure their needs were determined confidentially and their assistance was requested and received.

One patient, a single mother with a 4-year-old son, shared how your support through the Believe in Miracles Fund brought hope back into their lives. She said, "The utility bills you helped to cover and the gift cards for food and clothing lifted our lives." Your kindness provided more than just financial relief – it showed patients that there are people who truly care.

Thank you for helping families in our community feel supported and less alone during their cancer journey.

Your gift can help save lives from breast cancer!

For most of us, a mammogram is affordable. Our health insurance covers most of it. But there are many women who can't afford a screening for breast cancer.

Your gift of \$200 will cover the cost of a mammogram and reading for a woman in need. Your donation could possibly save the life of a daughter, sister, mother or grandmother.

Your help is critical for a woman who needs a mammogram but cannot afford one due to circumstances beyond her control. Your gift to the Maria R. Lucarelli Endowment Fund at Henry Ford Providence Novi Hospital and Henry Ford Providence Southfield Hospital will be used to cover the cost of a mammogram and reading for a person in need, but there is currently a shortfall in funds to help.

A mammogram screening and reading can find tumors that are too small to feel. If a woman can

get prompt treatment, it will improve her chances of survival.

Please consider making a lifesaving gift today.
Your gift of:

- \$50 helps a woman in need
- \$100 covers half the cost of a mammogram
- \$200 covers one mammogram and reading
- \$400 covers two mammograms and readings
- \$1,000 covers five mammograms and readings

To make your gift, please visit our secure website at henryford.com/providencegiving or scan the QR code.
