YOUR GIVING IMPACTS PATIENTS AND YOUR COMMUNITY

Summer 2025

NICU babies are warm because of you!

A Panda Warmer helps keep newborns safe in their first moments of life! Your gifts to the Mother Baby Fund at Henry Ford Rochester Hospital helped buy a new IRES Panda Warmer (a new Panda Warmer cost around \$18,000).

The Panda Warmer has advanced features that keep our tiny NICU babies warm and healthy during critical

times. The warmer helps babies maintain their body temperature, and it also has a built-in system that supports breathing. This eliminates the need to move babies to another area for care.

Your gifts make a true difference by protecting the health of newborns and giving families peace of mind. Thank you for your lifesaving donations!

Henry Ford Rochester Foundation

HENRY FORD HEALTH®

Patients are healthier because of you!

You made a significant difference for diabetic and congestive heart patients at Henry Ford Rochester Hospital!

Your gifts to the Community Health and Education Fund made it possible for four diabetic and congestive heart failure patients to attend medical nutrition therapy at the hospital, which can help reduce further hospitalizations.

These patients received financial assistance from the fund when their medical insurance wouldn't cover the therapy sessions. One patient who had multiple hospitalizations due to her diabetes and congestive heart failure managed to lose 15 pounds and lower her A1C after receiving medical nutrition therapy!

Thank you for your support!

You helped kids in need close to your home - THANK YOU!

Kids living in low-income homes in Rochester, Rochester Hills, Auburn Hills and Oakland Township received much-needed clothes and backpacks because of your support of the Employee Unlimited Potential Fund at Henry Ford Rochester Hospital.

768 backpacks and assorted clothes were donated to the Neighborhood House for their annual Blast Off 2 School event. This essential event provides school supplies and clothing to families in need.

In addition to the backpacks and clothing, Henry Ford Rochester Hospital along with Henry Ford Providence Academic Family Medicine provided free physical assessments to 24 children whose families could otherwise not afford them.

The parents who attended the event were extremely thankful for the gifts! You made this possible with your support that helped so many families living in your community.

Thank you for helping patients fill their prescriptions!

Your generous support of the patient Help Fund at Henry Ford Rochester Hospital made it possible for patients who are struggling financially to receive their prescription medications upon discharge from the hospital.

Patients who received help have expressed how incredibly grateful they are for your support. During

a time of feeling overwhelmed with fear and worry about how they would afford their medications, you made it possible for them to focus on their healing and recovery.

Thank you for your generous donations!

You can help a patient who is struggling!

Some patients returning home from the hospital need additional help picking up their medications, driving them for follow-up medical appointments and helping to grocery shop in addition to other urgent financial needs.

Your gift can make a world of difference for a patient who is struggling after discharge from the hospital. When you make a gift to the patient Help Fund, you are helping a patient with assistance after their discharge from Henry Ford Rochester Hospital. Your gift of \$25 will help one patient, a \$50 gift will help two patients, and a \$100 gift will help four patients.

To make your gift, please visit our secure website at henryford.com/rochestergiving or scan the QR code.
