

BY THE NUMBERS

OUR VISION

Transforming lives and communities
through health and wellness –
one person at a time.

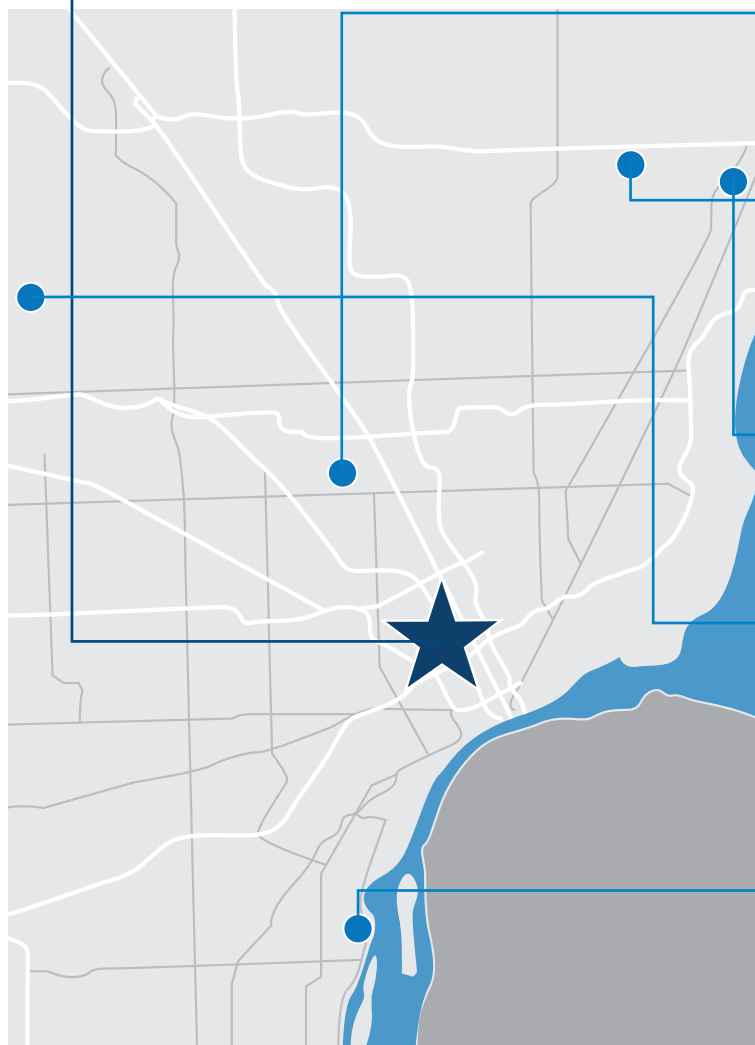

OUR HOSPITALS

HENRY FORD HOSPITAL

This 877-bed tertiary care hospital, education and research complex in Detroit's New Center Area is the flagship hospital for the health system. Henry Ford Hospital (HFH) is recognized for clinical excellence and innovation in the fields of cardiology and cardiovascular surgery, neurology and neurosurgery, orthopaedics and sports medicine, organ transplants, and treatment for cancer care. HFH is a Level 1 trauma center.

HENRY FORD KINGSWOOD HOSPITAL

This 100-bed hospital offers inpatient care for child, adolescent and adult patients with acute episodes of mental illness.

HENRY FORD MACOMB HOSPITAL – CLINTON TWP.

This 361-bed hospital in Clinton Township has nationally recognized quality, 24-hour emergency care, chest pain, stroke and trauma centers, and comprehensive cancer, women's, orthopaedic and cardiovascular care.

HENRY FORD MACOMB HOSPITAL – MT. CLEMENS

This 90-bed hospital offers inpatient and emergency psychiatric services.

HENRY FORD WEST BLOOMFIELD HOSPITAL

This all-private-room, 191-bed hospital offers comprehensive medical care, including 24-hour emergency care, neurosciences, women's and children's health, orthopaedics, diagnostic testing and a wellness center with complementary therapies.

HENRY FORD WYANDOTTE HOSPITAL

This 401-bed acute care hospital serves the Downriver and western Wayne County communities. It offers a full range of clinical services, including general medicine, surgery, birthing center, trauma care, orthopedics, rehabilitation and 24-hour emergency care.

RESEARCH AND EDUCATION

Teaching, research and advanced patient care make Henry Ford a premier academic medical center. Henry Ford provides innovative physician training programs, and initiates and collaborates on leading-edge medical research. Henry Ford physicians and scientists have academic appointments at Wayne State University School of Medicine and other WSU schools/colleges.

200

medical specialists and research scientists, including 80 full-time researchers, are involved in several hundred individual medical research projects

1,800

ongoing clinical research projects

\$70M

annual funding received from internal and outside sources, including the National Institutes of Health (NIH), other governmental sources, businesses and private foundations

#1

in Michigan for NIH-research funding for non-university based health care systems; Henry Ford ranks in the top 20 percent of all institutions granted funding by the NIH and U.S. Public Health Service

CENTER FOR HEALTH SERVICES RESEARCH

Conducts research focusing on outcomes, effectiveness and cost-effectiveness of the prevention, diagnosis, treatment and management of such diseases as cancer, diabetes, asthma and congestive heart failure as well as common acute conditions.

INNOVATION INSTITUTE AT HENRY FORD HOSPITAL

The Henry Ford Innovation Institute is the flagship of the health system's commitment to innovation. It provides Henry Ford innovators access to an array of intellectual asset-related resources and programs including opportunity assessment, design and engineering services for prototypes, and educational seminars and programs.

THE HENRY FORD MEDICAL GROUP

The Henry Ford Medical Group is one of the nation's largest group practices, with more than 1,100 physicians and researchers in more than 40 specialties. There are 26 Henry Ford medical centers in Wayne, Oakland and Macomb counties.

HEALTH ALLIANCE PLAN

Health Alliance Plan (HAP) is a Michigan-based, nonprofit health plan that provides health coverage to more than 690,000 members and companies of all sizes.

EDUCATION

Henry Ford is a state and national leader in medical education for medical students, interns, residents and fellows and the continuing education of faculty, affiliated physicians, nurses and allied health professionals.
