# Your Doximity Profile

About Us

Doximity is the largest secure medical network with over a million verified members, enabling collaboration across specialties and every major medical center. Our members: search and find any clinician, exchange HIPAA-secure messages, send and receive digital faxes with their own free fax number, and connect with their professional network.

6. Select Complete Registration
7. Begin the verification process and complete any fields as prompted
8. Once verified, you will have full Doximity access and be able to send secure messages and faxes

Profile Tips

- **How-to:** To begin editing your profile, hover over your photo in the top right corner and select "profile" and then "edit profile"

- **Photo:** We recommend a professional headshot for your profile, it is visible not only to referring physicians but to patients

- **Private Line:** The "private line" field is only visible to another clinician you have accepted as a "colleague"

- **Update:** Update all of the profile fields so that referring physicians have the most accurate information. Additionally, the more information provided will result in the most relevant content being shared with you on Doximity
