Plastic Surgery Case Logs

Program Data Report

Prepared by: Department of Applications and Data Analysis

- I. Program Level Report Tables
 - A. This table provides summary statistics at the program level.
The minimum required values specified by the RRC are given.
 - B. Descriptive statistics have been carefully chosen to provide the most useful information for judging performance at the program level.
 - i. "Prog AVE" - The average number of procedures performed per resident in the specified program.
 - ii. "Prog MIN" - The minimum number of procedures performed by a resident in the specified program.
 - iii. "Prog MED" - The median value among resident procedure counts in the program.
 - iv. "Prog MAX" - The maximum number of procedures performed by a resident in the specified program.
 - v. "Prog PERC" - The percentile is a statistic that shows how a program compares to all other programs in the country.
Percentiles range from lowest (1) to highest (99) with the average equal to 50.
 - vi. "Natl Prog AVE" - As an additional comparison measure the overall national program average is included.

PLASTIC SURGERY: PROGRAM REPORT (Main Table)
Reporting Period: Total Experience of Residents Completing Programs in 2021-2022
