

Enrollment begins with you, as the parent or guardian

To get started, you will need to enroll first:

- Create an account at Participant.JoinAllofUs.org.
- Complete the consent to join.

After you consent to join *All of Us*, you can also enroll your child:

- Create an account for your child within your *All of Us* portal. Your child's account will be linked to your account.
- Give permission for your child to become an *All of Us* participant.

Here's how to create your child's account within your *All of Us* portal:

- Go to the "My Family" tab.
- If you're on a computer, the My Family tab will be at the top of your screen.
- If you're on a phone or other mobile device, select the three horizontal bars on the top left side of your screen. Then choose the My Family tab from the menu options.
- It can take a few days after you enroll for the My Family tab to become available. If you don't see it after a few days, please call our Support Center at (844) 842-2855.
- Select the "Start" button under "Create Child Account" to begin enrolling your child.

A new page will open with more information about your child's participation in *All of Us*.

As participants, you and your child will be able to choose how much you would like to participate. You can decide to:

Share your electronic health records.

Answer health surveys.

Come in for an in-person visit to provide physical measurements (such as height and weight) and give a blood or saliva and urine sample, if asked.*

Mail a saliva sample from home (this option is only available to adult participants).

*As an adult participant, you will receive \$25 after completing an in-person visit to provide your samples and physical measurements. You also will receive \$25 at the end of your child's in-person visit to provide their samples and physical measurements. Your child will receive a small thank you gift. Participants who do not complete an in-person visit will not receive \$25.
