

Amounts Generally Billed Calculation

Henry Ford Health System calculates the amounts generally billed (AGB) percentage using the “look-back” method. AGB is calculated by dividing the sum of all Medicare fee-for-service and private health insurers that have paid claims to the HFHS Facility during a 12-month period, by the sum of the associated gross charges for those claims, all in accordance with IRS Reg. Sec. 1.501(r)-5(b)(3). The AGB percentages will be updated annually.
